

Winter 2015-16

Parents,

I want to personally thank each one of you for coming to parent-teacher conferences. I enjoyed visiting with you and talking about your student's progress. Report cards went home on December 10. If your student hasn't returned their envelope, will you please remind them to bring it back to school.

On Friday, we will be watching a movie from 2-3. If you would like to send healthy snacks that would be great! We have 25 students.

When we return to school after break, we will be starting our first FOSS Science Kit, Electricity and Magnetism. The class will have fun investigating and exploring magnets, small motors and light bulbs. This Kit will take about 6 weeks to complete.

Our next big Writing will be a Narrative essay. We continue to write smaller pieces in all subject areas.

Please continue to send in Box Tops for Education. Our class is in 2nd place!!!!!! The competition will go through the end of January.

PLEASE have your student practice Math multiplication facts 0-12 at home each night. 15 minutes of practice can make a big difference! Most students are really struggling with these. As we begin 2,3,4 digit multiplication, it will become more difficult for them, if they don't know their facts.

Thank you for everything you do to support your student (and me) in their 4th grade educational experience. I really enjoy teaching each and every one of them.

Ms. Evans
